Summary

Highly skilled and dedicated Software Engineer with 2+ years of experience in the field. Proven expertise in web technology, mobile technology, and cloud computing. Demonstrated ability to design, develop, and implement innovative software solutions that enhance efficiency and drive business growth. Adept at collaborating with cross-functional teams and utilizing agile methodologies to deliver high-quality products. Strong problem-solving and analytical skills, coupled with a passion for staying up to date with the latest industry trends.

Technical Skills

Database	MySQL, MS SQL Server, PostgreSQL, SQLite, MongoDB
Languages/Technology	HTML, CSS, JavaScript, TypeScript, SQL, React.JS, Node.JS, Java, C#, GraphQL
IDE	Visual Studio, Eclipse, Net Beans, Android Studio.
Other	JSON, REST API, Git, Azure, Docker, Kubernetes, Firebase, AWS

Experience

Software Engineer

April 2023 – May 2024

Viral Nation - Mississauga, Ontario, Canada

- Worked Closely on front-end functionality using React.JS, HTML, CSS, and MUI and back-end functionality using Node.JS, Prisma, GraphQL, PostgreSQL, and MS SQL Server.
- Designed and developed new features of the product and customized the reports based on individual requirements.
- Identified and resolved front-end and backend issues, including data inconsistencies and responsiveness issues, to enhance overall system performance and user satisfaction.
- Created NPM packages for Custom themes and shared modules, streamlining development processes.
- Conducted unit, integration, and end-to-end testing using Cypress, Storybook, and Playwright, improving test coverage.
- Using GraphQL and REST API integrations, facilitating robust data exchange between the front-end and back-end systems with Prisma.
- Implemented container systems like Docker and Kubernetes, reducing deployment time.
- Used Prisma Migration Tool to support database migration and alter database schema for local development to production deployment.

Software Developer

Aug 2021 – April 2023

Bliss Ladders, Thunder Bay, Ontario, Canada.

- Created and enhanced new features of the product, Customized the reports based on individual requirements, and fixed the bugs related to responsive Web Applications.
- Contributed to both front-end and back-end aspects for new features on the interactive and responsive mobile web application for Field solution application.
- Participated in Code review, Source code control, and issue-tracking software to ensure high-quality feature releases.
- Designed user-friendly interfaces utilizing React JS, HTML, CSS, and MUI and implemented back-end functionality using Node.JS and PostgreSQL.

Full Stack Developer**May 2019 – Mar 2021**

M&J InfoTech, Ahmedabad, India.

- Engaged alongside other engineers within an agile environment.
- Built web application development at the front-end and back-end side in, HTML, CSS, Bootstrap, jQuery, PHP, ASP .NET, MSSQL server, and MySQL technology for an Event Management Company that is well-established and popular in Surat.
- Assisted and trained the employees of clients about application and software support for a better understanding of the system usage.
- Utilized SQL expertise to craft complex queries, views, and stored procedures for diverse database transactions, leveraging MS SQL Server and MySQL Server technologies.

Education**Mobile Solutions Development****2021 - 2022**

Graduate Certificate,

Conestoga College, Waterloo, ON, Canada

Bachelor of Science in Information Technology,**2016 - 2019**

Babu Madhav Institute of Information Technology

Affiliated to Uka Tarsadia University - Maliba, Bardoli, India

Achievement

- Secured 1st Rank at Uka Tarsadia University.
- Secured 1st Rank in final year project during my bachelor's degree for creating a pet safety mobile application on the Android platform.

Extra-Curricular Activities / Hobbies

- Cooking and keen to learn new recipes.
- Improve my coding skills and read technical blogs.
- Volunteering for college orientation or other events in the Greater Toronto area
